DiversaLink

SOFTWARE DESIGNED FOR FAIR HOUSING AGENCIES.

DiversaLink is a cloud-based system that allows agencies to work anywhere, anytime. With multiple back-ups, agency data will be safe and secure ensuring preparedness for any emergency situation.

SYSTEM FEATURES:

CASE MANAGER
Open, track, and work your cases with ease. Data is centrally stored allowing teams to manage information in real time.

COUNSELING MANAGER
Conduct complete housing counseling cases from start to finish. Prepare budgets and easily follow standard HUD guidelines.

E&O MANAGER
Manage people, places, communications, and events from a single dashboard with Education and Outreach Manager.

GRANT MANAGER
Easily track grant funds to cases, manage grant requirements, and quickly generate reports with one system.

TIME MANAGER
Allow staff to quickly allocate and log hours directly to grant funds and manage payroll with little or no downtime.

About Our Application:

DiversaLink is designed to manage non-profit, fair housing operations. It allows agencies to consolidate various processes under one umbrella for better efficiency and improved data management. Now staff can more accuragely track process cases faster and more accurately, manage education and outreach (E&O) activies, track grant funding and compliance requirements, conduct testing in the field with mobile devices, log employee time and process payroll, and protect your agency's data from catastrophe with one easy-to-use application. DiversaLink also has a robust reporting system, that gives managers the ability to generate real-time reports across a number of work areas.
